DILIGENTLY  
DESIGNED HOMES

---

# ROHAN AKRITI. WHERE DILIGENTLY DESIGNED SPACES GIVE YOU A NEW LEASE OF LIFE.

Imagine a home that uncompromisingly makes space for you and your loved ones. A home, big or small, that doesn't restrict your life, but moulds it for the better. Imagine a home that blends nature seamlessly with the indoors. A home where you could find diligence in design in every square inch of space. All this and more make Rohan Akriti a unique home of these times.

Born of Rohan Builder's innovative concept of PLUS Home, Rohan Akriti brings together the best of architectural expertise in each of its homes, across all size configurations. What you'd find in here isn't just world-class amenities. But a world where space takes its best form ever.

---

---

## THE ART AND SCIENCE OF SPACES.

A home is designed to make space for comfortable living. But more often than not, the modern-day home comes in the way of it, thanks to inattentive planning and careless designing.

At Rohan Akriti, every square inch of space is designed after indulgent planning and much deliberation. So much so that, when you come home to one of these exquisitely

designed apartments, you will not find a stretch of unwanted space or a piece of meaningless design.

Our engineers and architects have worked closely to bring function and aesthetics to every aspect of the home. That's why we can promise you that you'd feel your home at Rohan Akriti to be much bigger than it actually is – even at the first glance.

---

---

## LESS WALLS FOR MORE CONVENIENCE.

We've made room for more space and less walls. The open kitchen and combined living and dining spaces ensure a heightened feeling of openness.

---

---

## MORE SPACE PER SQUARE INCH.

Most home-buyers judge a room just by its size, not layout. At Rohan Akriti, the room dimensions have been thoughtfully planned to accommodate the furniture better with ample space for you to move around freely.

---

---

## PRIVACY WITHIN THE HOME.

The guest bedrooms and powder rooms are segregated from the main bedrooms for better privacy of the residents.

---

## HARMONY BETWEEN ROOMS.

At Rohan Akriti, you will not find obstructive pillars, narrow corridors or corners that cannot be used. What you'd discover instead is a seamless harmony between rooms. The open floor plans and neutral colour scheming complement each other, creating a sense of visual bliss.

## MANY WORLDS IN ONE.

The placement of the doors are such that a certain amount of privacy is ensured even between the rooms.

---

AR. ADWITHA

---

## ARCHITECT'S NOTE.

While designing Rohan Akriti, our aim was to revive the lost concept of community living where the user becomes a part of the bigger scheme of things. This sanctuary, a breath of fresh air, is a neighbourhood carved out in an urban setting where people come together to celebrate life in all its glory.

Every square inch of space has its own significance, crafted to perfection with optimal efficiency. With each element having been carefully thought-through, this user-centric design focuses on value engineering. The design ensures best utilization of space available without compromising on the design philosophy or functionality.

---

---

## WE BUILD HOMES JUST THE WAY YOU'D BUILD THEM.

The concept of PLUS Home lays the foundation for every Rohan home. PLUS stands for Perfect Ventilation, Lively Light, Utmost Privacy and Smart Space - the essentials of good and healthy living.

Rohan Akriti is evolved and developed from the Smart Space attribute of PLUS Homes. Yet, we've ensured that every home in the project abides by all the other aspects as well.

---

---

## PERFECT Ventilation

Fresh air is the soul of life. And so is natural ventilation the most crucial aspect of our designs. A well-ventilated home enjoys lower temperature owing to seamless air flow between the indoors and the outdoors. Regular air passage also prevents condensation and thereby avoids moulding and rotting of furniture. Good ventilation also ensures better health of the residents by controlling impurities like bacteria and dust, unpleasant odour and moisture content.

At a Rohan home, you'll find a cross-ventilation system with openings on opposite sides of every room. All round the clock, you can feel the cool wind breezing in through the open windows, air corridors and other architectural details, all specifically designed to bring in the great outdoors.

---

---

## LIVELY Light

A naturally lit home would keep not just its residents healthy, but also the planet. When your home is generously washed in friendly sunlight, you never have to switch on the lights during the day. That is to say, you'd be saving on electricity, day after day.

Our engineers take special care in eliminating dark corners in the house. If light does not fall beyond 20 feet of the indoor space, an additional source of natural light is created.

---

---

## UTMOST Privacy

Privacy is usually one of the primary compromises one has to make while living in an apartment complex. But not at a Rohan home.

Through masterfully planned layouts, we create an exclusive world for you and your loved ones. The main entrance opens into a lobby and not the living room, so that an outsider doesn't get direct view to your house. The windows open to landscaped greenery or other open spaces and never to a neighbour's window. In terms of privacy within the home, doors of adjacent rooms are placed at a comfortable distance from each other.

---

---

## SMART Space

The common belief is that more space makes for a better home. A home-buyer pays for every square feet of space, but often it happens that certain pockets of space turn out to be purposeless. Fitting a piece of furniture into a square-shaped room or trying to make use of an unwanted corner are some of the challenges that thoughtless planning poses in our lives.

But at a Rohan home, you'll find the finesse of engineering in every square inch of space. The interiors are well thought-through and functionally designed to induce a feeling of openness. So much so that every bit of space inside the home can be effectively put to use, with absolutely no wastage.

---

---

## AWAY FROM THE BUZZ OF THE CITY. YET CLOSE TO ITS CONVENIENCE.

Kanakapura Road, once a green jungle, has undergone a rapid change and emerged as a prime locality in Bengaluru. The locality is specially known for its green open spaces tucked with several lakes. The area is fast developing into a major hub due to factors like the presence of Art of Living, Ranga Shankara and Metro Retail Family Mart. This stretch of road falls in National Highway 209 which intersects the NICE Road at Konanakunte Cross.

Kanakapura Road is a key arterial road that starts in Basavanagudi and runs through posh localities like JP Nagar, Jayanagar and Banashankari. The connectivity to key places like Bannerghatta, Electronic City and Mysore Road through NICE Road and extension of metro has made the area a real estate hot-spot.

---

The Phase II of Namma Metro, will connect Puttenahalli to Anjanapura Township. The line is expected to make travel from Konanakunte to Central Bangalore fast and convenient. The Metro is expected to catalyse commercial growth along this stretch by providing enhanced connectivity to other parts of the city. Also, the Gottigere - Nagavara Metro project is underway on Bannerghatta Road.

---

Another major factor that transformed Kanakapura is the Bengaluru-Mysore Infrastructure corridor project that envisages a 106km six-lane super highway. This highway is considered at par with the Mumbai-Pune highway.

## LOCATION MAP

# MASTER PLAN

# SPECIFICATIONS

## KITCHEN

- Granite platform with SS sink
- Glazed / Ceramic tile dado up to 2 ft height above platform
- Provision for water purifier

---

## UTILITY AREA

- Provision for washing arrangement with inlet and outlet
- Ceramic tile flooring and dado up to 3 ft height

---

## FLOORING

- Vitrified tile flooring with skirting for all rooms
- Ceramic tiles for toilets, balconies and attached terraces

---

## TOILETS

- Ceramic tile dado up to 7 ft height
- Granite / marble / tile fascia for door openings
- Washbasin with granite counter for common hand wash
- Wash basin of pedestal type for all other toilets
- Jaguar make or equivalent quality CP fittings
- Parryware or equivalent sanitaryware

## ELECTRICAL

- Concealed, fire resistant copper wiring
- Light points with modular switches
- T.V. point in living room and master bedroom
- Telephone point in living room and master bedroom
- AC point in master bedroom
- Earth leakage circuit breaker
- Provision for exhaust fan in toilets

---

## DOORS

- Elegant main door
- HDF moulded panel skin doors
- Aluminium sliding doors for the balconies
- Premium quality fixtures and fittings

---

## WINDOWS

- Aluminium windows with mosquito mesh
- Aluminium ventilators for all toilets

---

## INTERNAL PAINT

- Internal walls with oil bound distemper

## EXTERNAL PAINT

- Durable Exterior Texture paint

## ABOUT ROHAN BUILDERS.

Rohan Builders was founded in 1993 with an aim to build a healthier lifestyle for the city-dweller and greater sustainability for the eco-system. The years that followed saw the company making several firsts in the industry all directed towards achieving this single-minded goal.

Over the years, Rohan Builders employed several architectural innovations and topography-inspired designs to create homes where nature and engineering found perfect harmony.

Rohan Builders' first project in Bengaluru – Rohan Vasantha – introduced the concept of no common walls to the city. In the following years, many more architectural innovations took shape – no-neighbour homes, opens homes and digital homes, to name a few.

Today, Rohan Builders has built itself a name as diligent as they've built homes. And this wouldn't have been possible without the customers, who joined hands in making the world a better place.

---

---

## ABOUT ROHAN GROUP.

When you love your work, it shows. So, it's no surprise that we rarely miss a deadline when it comes to delivering projects. With an experienced team of over 1,000 professionals and landmarks that span the length and width of the country, we certainly have given a thing or two back to the nation. Sprawling over 30 million square feet across verticals like Real estate, Industrial and Infrastructure we have our feet firmly on the ground and our vision far ahead in the future.

## YOUR SLICE OF SPACE AWAITS YOU.

In our busy scheme of things, as we try to make space for our dreams and desires, let's not forget the private space that our lifestyle rightfully deserves. Of all the spaces we occupy, it's our home that influences us the most – where we spend most of our time. And that reflects upon everything we do.

Visit the home at Rohan Akriti, and you'd know how it could mould your lifestyle for the better. And once you move in, we can guarantee that its diligently designed nuances will delight you each day, every day.
